

CLAIM AMENDMENTS

This listing of claims will replace all prior versions, and listings, of claims in the application:

1. (Currently Amended) A carrier mounting structure comprising:  
a carrier provided in front of an engine compartment of a car body, that fixes electric components of a car;  
a bumper cover located below the carrier, that absorbs impact generated in a collision of the car; and  
a plurality of knobs extending from a lower surface of the carrier, and connected to the bumper cover,  
wherein the knobs are formed integrally and in one piece with the carrier.

2. (Previously Presented) The carrier mounting structure as set forth in claim 1, wherein each of the knobs has an L-shaped structure, and includes support protrusions that maintain the rigidity of the knobs.
